

San Fernando, Ca.  
July 23, 1983

To Whom it may concern —  
I am a graduate with a  
B.A. in Religious Studies from  
Canterbury University, New Zealand  
but having completed a formal  
study of religions both from  
a philosophical and comparative  
basis, I was left with little  
feeling of having connected  
with the subject in any  
living or meaningful way. On  
the contrary, all I had was  
a bunch of theories and  
suppositions in my head.  
This led me to travel widely  
both in Asia and the West  
in an attempt to tap into  
religion on an experiential/  
personal level and after  
much probing and disillusionment  
I was fortunate enough to

accidentally stumble on the one  
man I have met in my  
life who seems in fact to  
be a living manifestation of  
religion himself, and furthermore  
to have the gift of imparting  
it to others. Bhagyan Shree Rajgess  
to have become a sanyasin  
and have the opportunity of  
drawing from the limitless vision  
inspiration of this remarkable  
man, is undoubtedly the  
deepest single influence in  
my life, affecting not only  
my work and my play  
but at a fundamental level  
my evolution as a human  
being on this planet

Sincerely Yours  
Ma Deyo Sachara
