July 1983

To whom it may concern,

As a Counseling Psychologist with 22 years of Clinical and Educational practice I am very pleased to support Bhagwan Shree Rajneesh in his request to achieve permanent residency in the United States due to his exceptional abilities and creative contributions in the field of the Behavioral Sciences.

Find enclosed a brief Resume that list my extensive training as a Psychologist in three major technical approaches to mental health: Psychoanalysis, Gestalt Therapy and Neo-Reichian Analysis. Find also enclosed reference letters about my professional performance for the Department of Public Social Services and Probation Department of Los Angeles County, personal references by the Presiding Judge of Citrus Municipal Court and other individuals in the Community, as well as proof of my current status as Marriage and Family Therapist.

As a contemporary humanist I have been always interested in the causes, events and personalities that have contributed in the world to the enrichment of society through a better understanding of the roots and causes of individual, family and social distress.

Bhagwan Shree Rajneesh has made great contribution to this effect through his 350 published books, 1.500 tapes and numerous video cassettes with inspiring reflections on most every human issue. This remarkable thinker blends the teachings of all the Spiritual Masters of the East and West with the scientific research of modern Psychologies creating a technical instrument for personal transformation and social change.

My work as a Psychotherapist has been greatly influenced and technically expanded with the integration into my theoretical frame of reference of Bhagwan's concepts on the Inner Witness, the curative use of Awareness and Intuitive Perception and the actual power and healing qualities of love as a therapeutic tool. The original Moving Meditations have assisted some of my clients into confronting their psychological resistences at the level of the "body armour" and to release sexual and aggressive energies in non-destructive ways.

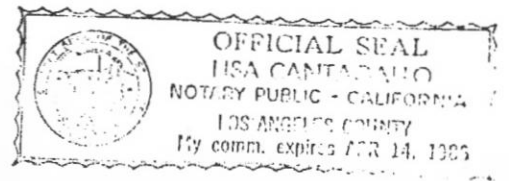

I consider it a rare opportunity and a privilege to have Bhagwan Shree Rajneesh as a permanent resident in the United States and to allow the unfolding of his experimental Commune. Love and Meditation seem to me a revolutionary though peaceful alternative to the arms race and the atomic holocaust !

LET THE UNITED STATES ONCE AGAIN SHOW
THE WORLD THAT THERE IS NEW HOPE FOR THE FUTURE OF HUMANITY !

Yours, sincerely

Susana Weinstein
