July 24th, 1983.

Dear Sir,

I am a professional engineer in England working in the field of building engineering design. During my present visit to Rajneeshpuram I have been deeply impressed by the quality of building engineering design work that I have seen. This work by Bhagwan's disciples is the result of Bhagwan Shree Rajneesh's inspiration and vision. It is clear that a man who can provide such ~~inspiration~~ inspiration is of very exceptional ability. It must be to the benefit of any country to have the presence and inspiration of such an exceptional being as Bhagwan Shree Rajneesh.

Yours sincerely

Sami Deva Riktam.
