

Hamburg, July 19th, 1983

To whom it may concern.

I am a graduated psychologist, got my education at the universities of Göttingen and Hamburg. I am trained in client - centered therapy, behaviour therapy, and Family-therapie at the Institute for Familytherapie in Weinheim, W.-Germany. I worked as a therapist with handicapped children and their families for the last 7 years at the Institute for Handicapped Children in Hamburg. Now I am working in my own praxis, doing therapy with individual persons, couples, families and groups.

I got to know Bhagwan Shree Rajneesh during my development in 1980. Since I became acquainted with Him as a man of exceptional abilities, who developed therapeutic methods internationally recognized in humanistic psychology. His sight of human being and His development of new therapeutic starts - including meditative elements in therapy - has influenced and changed all of my work as well as the work of humanistic psychotherapists all over the world.

I am absolutely sure, that Bhagwan is the greatest and most beautiful living master we got nowadays.
