To whom it may concern

I am Jorge Palomino, musician, with five years studies in the Royal Conservatory of Madrid and a four years Degree in the School of Jazz of Valvidriera, Barcelona, Spain.

I have come to know Bhagwan Shree Rajneesh three years ago through his books and publications of his work.

His vision of music as something not only human but divine able to transform the consciousness of my being has deepened in me. He has shown how harmony and melody can be an inside and outside phenomenon melting in the meeting point of my breathing.

I feel very grateful to this man of exceptional ability in the world of Art, Bhagwan Shree Rajneesh and I give my international support.
