To Whom it may concern.

From a great personal interest and a proffession as an architect in housing and townplanning I am very much concerned in research on people's behaviours, needs, consciousness and health in social and urban structures.

After reading several books, listening to some taped discourses and a visit to Rajneeshpuram in Oregon in 1982 I discovered what an ecceptional experienced and knowing person Bhagwan Shree Rajneesh is. His insight, not only in spiritual matters but also in all our ways of living on this earth, is now the greatest source of inspiration to me.

The joyfull and loving guidance he is giving to his disciples, to fullfill their work in personal growth, social and cultural development, building up the commune of Rajneeshpuram must not be interfered. It is a unique opportunity to follow this work of Bhagwan Shree Rajneesh and his disciples, which should be supported with all possibilities.

Yours sincere
