

My Impressions of the Exceptional Abilities of Bhagwan Shree Rajneesh

My profession is Dipl. Educationalist and Family-Therapy. I was trained in Gestalt, Psychodrama, Rebirthing, Sandplay, Dreamwork, Communication systems and Family-Therapy. Since 5½ years I do work in a psychiatry for children. Every day I do therapy with children and their families.

Bhagwan's books, tapes and the relationship between a disciple and a master helped me a lot to understand more how human beings organize their life. How psychic tension and oppression are created.

My whole life I have searched for a man, who is able to tell and teach about life. Therefore I have studied Jesus, Buddha, Hegel, Kant, Sartre, Marx, Lenin, Fromm, Freud, Jung s.o. But Bhagwan is the first man, who are really able to satisfy me.

For me he has extraordinary abilities, like Jesus or Buddha

Sincerely
