To Whom it May Concern:

I am writing in favor of Brayvan Shree Rajivok staying permanently in the United States.

I am an American citizen living in Australia at the present time. I studied in America and am practicing as an individual and Family Therapist here.

I encountered Brayvan for the first time about two years ago when I attended a group run by one of his disciples. Having studied for many years, I found Brayvan offered a spiritual dimension to my life that has helped me on a personal and professional level. Opening to his teachings and his essence has brought trust and loving to me that I can now help others to find. He is a man of joy. I support what he has to bring to America.

Sincerely,
Janette M. Dru
