Klenzestrasse 41

8000 Munich

West Germany

To Whom It May Concern,

Being a lawyer in Munich, one of the largest cities in Western Germany, and through this profession, being in close contact with the problems and conflicts of modern life, I am convinced that Bhagwan Shree Rajneesh is a contemporary with the deepest insights and most helpful knowledge of the problems of modern society. Be it the subject of crime and proper dealing with criminals or human conflicts in marriage, relationships and child-rearing or other problems of man and society, Bhagwan often gave the opportunity to handle these matters in a way which led to best solutions.

I have studied Greek and Latin languages, philosophy, Christian theology as well as my studies in law. In respect to philosophy and theology I have experienced Bhagwan as an outstanding teacher who is able to teach in a most entertaining and most profound way.

I know Bhagwan Shree Rajneesh personally since five years and at the present time I am a visitor at Rajneeshpuram for the yearly festival. The way Bhagwan is transferring His vision into reality here deeply impresses me.
