TO WHOM IT MAY CONCERN

I am an Italian lawyer, criminalist and working also in the field of the right of work. I have come to know Mr. Rayneesh through his writings, through articles on newspapers and magazines and also through the personal acquaintance of some of his disciples. I specify that I am not and I will never be a follower of Mr. Rayneesh, but I found out that all the Saanyasins I have known were and are really good people, respectful of the law and honest.

Therefore I think that a democratic and civil country as USA are cannot deny the permission of residence to a person whose activity is philosophy and prayer.

Regards.

Massimo Pozza
