To whom it may concern:

I am writing in support of Bhagwan Shree Rajneesh's visa application. I am a sannyasin who has been working as a professional since 1977. After studying for my M.S. degree in Health Science (Biostatistics and Epidemiology) at California State University, Northridge from 1975 to 1977, I worked as a Medical Systems Analyst at USC Medical School in Los Angeles.

The first time that I saw Bhagwan Shree Rajneesh was in July 1982 although I was already a sannyasin. I again visited my teacher this July at the Second Annual World Celebration at Rajneeshpuram. I am currently working as West Coast sales representative for a major distributor of glassware. To be able to visit my teacher and to participate in our religious festivals each year is very important to me. Thank you for your attention.

Sincerely,

Marsha Sendar
