To whom it may concern

Having majored in Philosophy at the University of Hawaii, I find Bhagwan Shree Rajneesh to be the one true existentialist alive today. Having lived and seen the world from what 'Is', he has become a leading figure in human psychology worldwide. He has invented therapy techniques which apply specifically to modern man of the 80's. He also published in the field of politics, showing the faults of modern communism and the further development of capitalism which America exemplifies.

Living in Rajneeshpuram, Bhagwan's presence provides a space for discovering the pre-conceived ideas given each of us since day one and how these get in the way of living each day. The joy of living in Bhagwan's 'Buddhafiield' transforms the humdrum of daily living into an expression of a Love for Life and Liveliness.

Sincerely,

Sw. Nityanando
