To whom it may concern.

Last week I came home from the 2nd world festival in Rajneeshpuram in Oregon. I am an German dentist with a praxis nearby Heidelberg I am sannyasin since August 81 and I unfortunately missed the opportunity to see Bhagwan in Poona so I saw him the first time in Oregon last year. I read many books of him and did many meditation camps in Germany and in Geetam near Los Angeles. In these camps and groups I got so much love and good therapy that I became more and more a lover of this master who created this form of human growth therapy. My wife and my both children became sannyasins also and we live very happy as a Sannyas family and many people came in my praxis because they know I am a sannyasin and they like this kind of treatment. I feel that I have another feeling for love and caring for my patients since I came in tune with this wonderful master who has the ability to give something to me what I can not declare but what I feel transforming me and my approach to the others around me. Seeing the progress that happens in Rajneeshpuram and seeing Bhagwan so loveable and healthy I left Oregon in a state of deep grace and looking forward very hopeful that something so beautiful will grow more and more and I can see Bhagwan next year again and drinking his energy. All my wishes to you are: let Bhagwan stay at this wonderful place, let him do his work and give us the opportunity to see him once the year in Rajneeshpuram.
