To Whom It May Concern:

I am a Licensed Certified Social Worker in private practice in Metropolitan Washington, D.C. area. Since 1962 I have dedicated my life to helping people help themselves.

Because of my interest in my own growth and others, I visited Bhagwan Shree Rajneesh in Poona, India two different times in 1979 and 1980. My experience was profoundly transformational. Through being with this world renowned religious leader, I developed more skills to accomplish my task of helping people. I also experienced growth within myself that has continued. All in all, I consider Bhagwan to be The leader in the field of psychology.

Hence, it is my request that this learned man be invited to stay in the United States. I want to continue learning from him.

Thank you for your consideration in this matter. If you should desire any further information, I am gladly available at (301) 986-1223.

Sincerely,

Barbara S. Carpenter
