

To whom it may concern:

I am a permanent resident of Raynesburg, Oregon, as well as an American citizen. I took Sannyas after Bhagwan began silent.

Prior to this, I had finished my M.A. in psychology and was counseling in Los Angeles. Also, I had been a student of the religious and arts for many years.

Creativity, psychology, and Religion are what first drew me to read Bhagwan's books.

When I first took Sannyas, Bhagwan was already silent and his message was communicated in a

much clearer and deeper
way than ever before. It
is a well known fact
among all religious traditions
that the highest peak of
spiritual attainment can only
be communicated in Silence.

Living and working in
the commune, this religious ideal
and vision has become a
practical day to day reality
and Bhagwan's presence is
the living inspiration for it.

Sincerely yours,

Ma Premdevi
