To Whom it May Concern:

What is happening here in Rajneeshpuram is unparalleled in the history of mankind. Through his presence, Bhagwan Shree Rajneesh is enabling a group of people to live and work together with such love and cooperation I have never witnessed before. Rajneeshpuram is a unique experiment in living based around the presence of an enlightened master. His love can truly be felt in his people and their work here. To see him on his daily drive is an essential inspiration and reminder to his people of what they are doing - living together in a peaceful, loving, creative and celebrative way. To visit Bhagwan Shree Rajneesh has been of immense inner significance to me and I can only ask that he be allowed to stay so that many others can visit and share this experience.

Love,

*Ma Shital*
