TO WHOM IT MAY CONCERN

Having worked at different psychiatric hospitals for more than 5 years, from 1973-1978, before becoming a disciple I can really appreciate Bhagwan's influence on myself and others. Since coming to the commune in Oregon and working with people here, now, my life is so much more full of love and accepting of the lessons life has to teach. Bhagwan had often spoken about how life is always giving to us all we need to grow and live and learn. In his spirit, Rajneeshes have created a very ordinary and simple life at Rajneeshpuram; one which is a constant opportunity to live not only in his presence but by the ideals he inspires.

This quality of living life to the fullest is what I observed to be missing in the people with whom I came in contact with previously.

I'm so glad to be amongst a lot of people who love life and listen to it. Bhagwan exemplifies this.

Now I'm a waiter at our Zorba the Buddha Rajneesh Restaurant and love the understanding that my fellow workers have. It's also made me more loving towards our customers.

Bhagwan's presence has also helped me to be more meditative in my work, which has since become a kind of worship. His meditation techniques still suffuse me and now I can really transform my interaction with people into a creative experience which is ongoing, solid, and dynamic.
