To whom it may concern. -

There is no way for me to know whether it will be possible for me to bring my overwhelming experiences in Bhagwan's presence here and in my life, close to you, but I want to try it.

Coming from an artistic background, Bhagwan's influence into my work can be seen by the very change of the quality of my paintings. The struggle with life changed into pure joy of creativity; - the immense scale of dark emotions raised up to a clear, light harmony. The whole approach to the art just lost its seriousness, its meaningfulness and turned into pure joy, into a playfulness, into a gift.

And this change, this opening of my eyes didn't happen through words, - it happened through His very being, His energy which is flowing through my being.

The fulfillment of creativity all of a sudden wasn't connected to painting alone. There is joy of creativity in everything I'm doing.

This immense opening of a new consciousness in the world of art was only possible through Bhagwan's presence, through His great vision - which He brings close to us every day here in His commune.

When you look at our art, at everything we are doing,

you will find Magwan's quality, in it's lightness and beauty.

His being and His vision is a great gift to the world -  
He should be supported in any way possible, so that He can  
continue His work.
