TO WHOM IT MAY CONCERN

As a professional pilot and flight instructor for various air lines, air taxis and flight schools for the past 15 yrs. there have been numerous opportunities to observe the correlation between one's attitudes, philosophies and religious beliefs; and efficiency, clarity and overall performance.

In retrospect, none of the available alternative life styles, therapies, cures or philosophies come close to the effectiveness of the insights and techniques of Bhagwan Shree Rajneesh in helping people to drop the harmful excess baggage in their minds which kept them from living life fully.

I have been a Sannyasin for two years. In that time I have become more efficient, capable, and more joyful in everything from flying to relating to others. And I see it happening to the others around me who choose to be with Him. It is simply what occurs when a certain clarity or genius is allowed into one's life.

Whatsoever the category in which he is being considered for permanent resident status: exceptional abilities or renowned spiritual leader - he qualifies!

This month's celebration here, attended by 15,000 disciples and friends from around the world, is some testimony to His wide appeal.

He is a tremendously valuable asset to us and should be recognized as such.

Yours truly,

Swami Antar Hasya
Pilot Air Rajneesh
