

Institut für körperorientierte Psychotherapie

To whom it may concern

20 - 7 - 1983

We, the well trained professional therapists of the "Institute of Body-oriented Psychotherapy", have an holistic approach to work with people (patients, clients, trainees). We help them find their peaceful way, to feel responsible for themselves and the world they live in.

We have experienced: to find one's path out of the closed system each individual is to the integration of physical, emotional, mental and spiritual qualities of each human being the guidance of a spiritual master is needed.

The religious master BHAGWAN SHREE RAJNEESH (to whom I found 4 years ago) has taught us meditation to become centered in ourselves. Since then the quality of our work has increased enormously.

It is a benefit for the world to have the religious master BHAGWAN SHREE RAJNEESH to continue his work in Rajneeshpuram, Oregon.
