To Whom It May Concern

I am a school teacher and I teach children from 6 to 15 years old. I graduated from the University of Hamburg in 1974 and I qualified as a teacher in 1977. I've been a government employee since then.

I first heard of Bhagwan Shree Rajneesh 3 years ago. There had been very negative TV- and press reports about what was going on in Poona. But I sensed then that this religious teacher in India was the one person on earth who could help me out of my utterly unhappy and chaotic psychological state. I came into contact with sannyasins, did therapeutical groups in Rajneesh centers and got real help from them to cope with my life. Last January I spent a Healing Week in Medina Rajneesh Neo-Sannyas Commune in England where I felt like being surrounded by an ocean of love. I wanted to stay close to this love and then decided to take sannyas, become a Rajneeshee.

I'm sure that my being a Rajneeshee will be a great advantage to the pupils who I work with. Till now I didn't do my work lovingly - in fact, I didn't know anything about love. I'm starting to find a way to love. The essence of teaching, to prepare a situation, an atmosphere where someone can learn is now my priority.

In my opinion, Bhagwan Shree Rajneesh, is the most intelligent and loving teacher there is. He teaches the essential things.

In love,

J. Bellwinkel-Ehrlich
