To Whom It May Concern

This letter is to express my feelings that Bhagwan Shree Rajneesh is a being of exceptional ability, intelligence and splendour.

When I first met Bhagwan 3 years ago I was amazed at his ability to articulate in words my innermost feelings, and answer questions I felt but could not really formulate. And to shed light on dichotomies which had existed in my life between science/religion, body/mind, spiritual/material, male/female; how he brings polarities together. He expresses himself through each movement, gesture, look, as well as his incredible eloquence with words.

Being with him, since he entered silence, feels like he is communing with my spirit, rather than feeding my mind. This goes much deeper for me. I feel some of his vast silence pour into me. That even when I am not in his physical presence. The stillness helps me create a space inside where I am more centered, aware and present than before I met him. And his constant reminder to be in the moment.

I work in the field of Electrical Engineering - often in situations which are dangerous. In the last 3 years I have had less shocks, accidents, and made less mistakes than before I met Bhagwan.

I have worked, lived and travelled in all parts of the world for many years meeting many people of every race, class, background and religion. When I look into Bhagwan I see something I have never seen before in anyone. An openness, clarity, acceptance and love, unconditional.

Yours in love,
