To Whom it may concern:

I've been a Welding & Metallurgical Engineer for 8 years, the last 5 years spent at General Electric's, Nuclear Steam Turbine Division, in Lynn Mass. As a professional I had a very successful career but I've never really felt fulfilled. I've never been able to integrate my spiritual life with my work.

I've been a Sannyasin, a follower of Bhagwan Shree Rajneesh, for two years now. This incredibly gifted spiritual leader not only appealed to my intellect but more importantly he has touched my heart. Through his love & teachings I've learned to integrate my head & my heart.

I'm still in the field of Welding here at Rajmudharam. but instead of being just work or just a job, it has become my place of worship. Through Bhagwan's teachings & love I'm experiencing & celebrating life & love as never before. And it's all made possible due to his miraculous presence here in the United States.

At a time when the world is racing toward destruction, we need spiritual leaders of his calibre to offer love not weapons as a solution to the problems of nations and men.

Please support his application for permanent residency here in America

Respectfully &
With Love
Sw. Prem Syon
