

To whom it may concern,

My name is Swami Anand Gelo and I am a sanyasin of Bhagwan Shree Rajneesh for three years now. I am living in a sanyas community in Holland and working in the society as a nurse.

I came in contact with my Master by reading some books of him. I am always amazed and surprised when I read them, to me he is talking about life, about society, about relationships and so on in such a clear, positive and understandable way. About health, love and enjoying life. Bhagwan is so total in his vision. I have never met such a loving intelligent and clear man in my life. Through Bhagwan I understand more of a Master as Jesus and Lao Tse than I have ever done in my whole life. And he is a living Master. A living Master. To me this is more powerful and confronting than what books ever. Now he is working on his big experiment in Rajneeshpuram, which is based on a total new concept to live in harmony with each other and with nature. To me it is unbelievable what is happening there. This year I was in Rajneeshpuram and I can't understand this with my mind. It is going beyond. What is happening there is so positive and loving and this all because Bhagwan is showing us his vision. And the energy in this Bhuddafield is incredible.

Here in Holland I feel him every day. His methods to grow to an adult person are very strong.

I have more trust in life than ever and I enjoy life more than ever. And I am trying to live without fear. To me much of our life is based on fear. This doesn't give people freedom. Living without fear means freedom. So let's give it a try, we know the misery and don't see the mystery of life, look at the trees, the sky and the birds look how beautiful this is and everything is there. We don't need much more. Bhagwan is trying to give us the eyes back to see these things, to see what is there. Love existence, respect it, don't destroy it.

Bhagwan is the most important human being in my life which I totally trust.

And then this commune he is showing us how we can live in harmony. My eyes are opening more and more and it is amazing what I see.... I can't explain it, it is even difficult to share it in words, it is beyond words, so.....

Bhagwan is silent, what can he say more. He is showing us the way. He is the living way.

I am grateful to share this with you.

Much love
