

TO WHOM IT MAY CONCERN

I am disciple of Bhagwan Shree Rajneesh since 1980.
For the last 2 years I have been living in a Rajneesh
Meditation Center.

My activity, which is called worship from the disciples,
is being plumber in the Cooperative we run.

Being disciple of Bhagwan Shree Rajneesh enormously
contributed to my inner growth, giving me the joy of
life and the love for the nature which is inside of us
and around us.

Thanks to his presence in Rajneeshpuram, OR, something
is really boring, something which he means: a religious
city, based on the respect and the attention of the
individuals and on the respect towards all which surrounds
us.
