To Whom it May Concern,

During my second grade at college I became dissatisfied with my life. I wanted to slip out of that situation. My brother told me about a Rajneesh Meditation Center and I wanted go even though I had never read any of His books. When I went there I was puzzled because it seemed so different from other religions that I knew of.

The first meditation was very thrilling and impressive. I kept on meditating and started to read His <sup>His books</sup> books. His words flew into me, it was like an energy flowing. A beautiful experience. I wanted to take sannyas, it did not matter whether He was in silence or not. His action is beyond language.

I became a sannyasin on the 18th of February 1983, now I am alive and kicking. Before I was very negative now I am becoming more and more positive, I enjoy myself and everything. Bhagwan has helped me to wake up to myself and to existence and all the beauty and blessings of this world.

Sincerely

Hiroko Mochizuki  
Ma Prem Haritama
