To Whom it May Concern,

My chance to become a sannyasin came about by my friend who introduced me to Bhagwan's books. After, I visited a Rajneesh Meditation Center. Here while meditating I started to watch myself and at the same time I felt every sannyasin was tied to Bhagwan with a deep trust and sincere love.

I guess everyone has physical problems and mental sufferings, but in the case of mental sufferings, even if one talks with other people it does not help a great deal. I had such a problem for several years and felt very close to death. Then I met Bhagwan Shree Rajneesh.

While writing this letter I can not tell exactly why I became a sannyasin, all I can say is that while reading His books I was engulfed in His cosmic love. Bhagwan has gone into silence and is not talking directly to us, but for us sannyasin His verbal communication has been said and are all recorded in His many books.

There is no dissatisfaction of any kind from this. If anybody has a question, they can write a letter to Bhagwan and they will get an answer from Him. I suppose this will appear to be a little unnatural to you. However for us sannyasins it is natural, because we are tied into His deep love which goes beyond the world of words.

I became a disciple of Bhagwan Shree Rajneesh on the 9th of July 1982. Thank you for reading this letter.

Sincerely yours,
Miss Takako Noguchi
ma kranti Manjusha.
