

SARVOGEET

CENTRO DE MEDITACION RAJNEESH

July, 15th 1983

TO WHOM IT MAY CONCERN

I, Antonio Ruiz-Huerta Carbonell, Medicine Doctor graduated at the Complutense Madrid University the year 1979, assert the exceptional personality of Bhagwan Shree Rajneesh who has influenced deeply my professional and personal life.

In the field of the Health where I carry out my work he has given us through his books and lectures, a new outlook in regarding the body as a temple to take care of and respect immensely for being the foundation of our human and spiritual growth.

I've got to know Bhagwan Shree Rajneesh through my personal seeking of a healthy and loving life. In his Meditation Centers & Communities I've seeing his message becoming a factual reality day by day.

Nowdays as one of his disciples and friends my life and my profession go linked to the energy of this exceptional man who has created the possibility of a new healthy human being, psicologically and spiritually.

For all that I give my international support to Bhagwan Shree Rajneesh as a man of extraordinary ability in Science.

Signed: Antonio Ruiz-Huerta Carbonell
