TO WHOM IT MAY CONCERN

I am working in the Radio- and Televisionstation in Vienna since 23 years (advertising).

1980 I went to Poona to see Bhagwan Shree Rajneesh. Since this time my life has changed.

Bhagwan gives so much love to me that my heart is overflowing. Love is his religion. On each place where sannyasins (his disciple) are living you can feel his love and the love of his disciple to him. In his present it is easy to enjoy what ever you are doing. It is beautiful to live and to work with other sannyasins. Its possible to see and to know people in another way. Bhagwan helps us to be ourself. Love is happening. All people need so much love and it is great to have a living Master, to be with him, to learn to live and to be. I love him and need him.

I wish all people to know him.

With much fun
