RE: EXPERIENCES WITH THE RAJNEESH RELIGION

In our contact with Rajneeshies for over two years we have been able to observe what a favourable influence their master Bhagwan Shree Rajneesh and his guidance has had on their lives in relating to others, their attitude to life and to the world around them.

We were able to reach this conviction personally through many conversations or visits to the Hamburg sannyas commune, Baile Rajneesh and also Medina Rajneesh in England.

Our attention was especially drawn to the Medina Rajneesh Sannyas Commune through our son who belonged to this community and received care and medical attention more lovingly there than at any conventional hospital until his death from leukemia took him away from us at the age of 22. We began to have a deeper interest in this heritage of thought and also to read the books of Bhagwan Shree Rajneesh.

We noticed that we too had become able to face our fellow man in a more open, loving and patient way and to understand the world about us with more awareness and clarity.

As we believe that this change is related to our harmonizing with the ideas of Bhagwan Shree Rajneesh, we hope that the flock of his followers continues to grow so that through Bhagwan Shree Rajneesh, love between us regains the rightful importance it deserves and our whole world becomes a more loving and beautiful place for mankind.
