TO WHOM IT MAY CONCERN

As a medical doctor (graduated at the University of Leiden, Holland in 1972) I have five years of experience in the field of general psychiatry followed by 6 years of experience as a family doctor (huisarts) graduated at the University of Nijmegen, Holland. Both my interest as well as my experience is more practical than scientific.

Bhagwan Shree Rajneesh has a strong influence on my workstyle as a family doctor. The impact his vision has on patients as well as on my own personal well being is enormous.

I have known Bhagwan Shree Rajneesh since 1974 through books, tapes, videos and personal contact and my experience is that his meditations have a very integrative influence on people as well as on different approaches of therapy and medicine.

I wish to state here that Bhagwan Shree Rajneesh is a man of international renown and exceptional ability.

Yours faithfully

J W Vervoort
