## To Whom It May Concern

As a visitor of the Festival and the Commune I'm very much impressed by the life, the growing and the beauty of this Buddha field, with the presence of the Master Bhagwan Shree Rajneesh. I feel this loving clarity everywhere in the worship, this positive space where all my energy is flowing. The silence of Bhagwan brings me to my inner silence out of this the creativity comes. The silence does not mean that nothing happens, it's just the opposite, a lot more happens in a clear and fluent way without disturbance. Bhagwan is a genius and he in his silence is so powerful and permanently present for everything that happens. His understanding and clarity about men's problems make things so simple and it's such a present such a gift that the spiritual Master Bhagwan is here.

I have a Masterdegree in Education and Sozialwork of the University of Munich and for 4 years I was teaching a pilot project for family research and development which was supported by the state-government of Bavaria. Out of this background

of experience how the children are living and growing up in this freedom, happiness and loving support, is the realisation of all dreams, wishes and imaginations for the best conditions for children. This what happens here in Rajneeshpoream is really a Master example. of a spiritual Master of Bhagwan Shree Rajnees.

Sincerely

A handwritten signature in cursive script, appearing to read "Shree Rajnees", written in dark ink.
