

To whom It May Concern July 27, 1983

I have been practicing as a doctor of Internal Medicine (Gastroenterology) at the University of W-Berlin for the last seven years. For my medical education as well as my clinical training I attended the University of Wuerzburg, Duesseldorf and Berlin for 7 years. Afterwards I worked as a research assistant at the Free University of Berlin and published several papers in international medical journals.

In 1976 I came into first contact with the religious teachings of BHAGWAN SHREE RAJNEESH. I experienced, that only His approach of acceptance and love combined with scientific methods can restore health in my patient. Without it I very often failed to be of much help for these patients.

For me it is such an overwhelming experience to be in His presence. After listening to Him for a long time I experienced the profound meaning of His message. For me BHAGWAN is truly one of the greatest religious masters.

Sincerely yours
