

Box 10
Rajneeshpuram, Or.
9/11/11

To whom it may concern:

I have been a Rajneesh for 7 years now. Five years before that I left college looking for more "meaning to life". During these five years I travelled around the world having jobs ranging from encyclopedia salesman to carpenter to bakery manager.

After meeting Bhagwan, everything took an upward turn. I have learned from seeing Bhagwan and the way he lives, a new way of life, a new attitude that affects everything I do and everyone I meet. Seven years sounds like a long time, but the learning never stops. Day by day my life gets richer, my work gets better, and my relationships with others grow fuller.

Bhagwan is a master teacher who has begun his ultimate teaching, his teaching which is beyond words. I am presently a chef and waiter at the Zorba the Buddha Rajneesh Restaurant. I am constantly reminded of my gain from Bhagwan because of the increasing ease and sincerity with which I can serve the customers and the joy I see in their faces when they leave.

Again I say that my "education" is a continuing phenomena, and that Bhagwan Shree Rajneesh

is simply a genius. I know this because
he has inspired the genius inside myself.

yours truly,

Jeffrey L. Heisel
