Dr. Claude OLIEVENSTEIN M.D. D Psychiatry  
Head Doctor Hopital Marmottan

Dear Sir,

As a consultant involved in International Organizations like U.N., UNESCO, WHO in the field of drug-addiction, I travel often to the four corners of the world and I have come to meet Bhagwan's disciples.

Even if I personally do not agree with all of Baghwan's teachings, I can vouch as a practising psychiatrist, author of best-sellers, the value and effectiveness of Baghwan's approach to human psychology and growth.

This is the reason why I express my surprise at the news that the master has a hard time getting his resident permit to live and perform his spiritual work in your country.

Sincerely yours,

Dr. OLIEVENSTEIN
