TO WHOM IT MAY CONCERN:

The meeting with Bhagwan Shree Rajneesh was for me the meeting with my own inner voice. Both speak the same language.

I read His books, I got to know His meditation techniques, I felt that I had found an unique treasure.

Then I got acquainted with sannyasins. They seemed old friends. No presure, no manipulation. My trust was increasing. My life became more positive.

I was very convinced when I took sannyas even without having seen Bhagwan.

In the meantime I have seen Him and his new city Rajneeshpuram. To express in words the deep impression I got is impossible. What happens in the surroundings of my Master, the community, the worship, these people with such loving vibrations has to be seen and experienced. It's like a flower blossoming in the desert.

To be a sannyasin means for me to be at home, connected with a living religion and an enlightened being. The opportunity to grow in a surrounding of love and joy.
