

Gerda Brand Vihar
Vælundsgade 5^{III} St.,
2200 Copenhagen S
Denmark.

To whom it may concern.

My knowledge to Bhagwan Shree Rajneesh started two years ago. Before that my life was a searching after piece inside. I was always sad and afraid.

I am a 38 years old kindergarten teacher. - started my education in 1965 at Balberg Børne-
højskole and finished in 1968. I got married but felt still unsatisfied - deserted. Started a new relationship - dropped it. Became scared of other people. Isolated myself. With a friend I tried T.M. and read some different psychological books and got more confused.

Then I heard about a meditationcenter in Copenhagen where I could do dynamic meditations and therapy groups. I went there and a little hope started growing inside me.

Later on in a kundalini meditation I open my eyes and was looking at a picture of Bhagwan and a big YES arises in me. I became a sannyas - a disciple of Bhagwan and then the way to happiness and piece started.

listening to Bhagwan's lecture or reading
his books give me a good feeling of being
O.K. as I am, and open up my heart so
now I am able to stay with other people
and make relationships.

To be close - near Bhagwan under this
festival during sabrang and dardhan has
been a strong feeling of peace - of softness -
of being home. His energy and love is so
strong - the mind stops going on and a
great feeling of love arises in your heart.

It is a great gift to have a living
Master.

With kind regards

G. Anand Vihar.
