

My legale name is Susanne Amann.
I am an Sanyasin since 30.4.1984
and I know Bhagwan 8 Month. I
work in the kitchen of Zorba the
Buddha in comerio near Milano. There
are two hookers and I am the helping
hand for putting what is needed to
cook. I have to watch how the work has
to be done. In the beginning I feel
angry that I have to wait that somebody
said what I have to do. I learn to be
silently and aware of the work. I love
the work, because I come in to a wonderful
silence, so the live is really big of love.
I feel the chance, of my mind always,
which is always telling me stupid stories
that gives me pain and I feel scare.
But it comes to me, the true of religion,
so the "no" will go away and I thank
Bhagwan that he is alive and that his
love comes inside to me. I feel the chance
more and more. I meditate of love, wit
is also the name which has Bhagwan
given to me.

In love Dhyampriya
