To whom it may concern,

Bhagwan Shree Rajneesh is my master. He is my religious master. Most of the people will reject this sentence, because they don't believe in love. A love-relationship, like master-disciple, has an immense beauty, it hurts also, because my master shows my, which is not mine. This grow process has his painful side. The peaks are beautiful and high, the valleys deep and dark, life becomes more intense, lovable and joyful. Another quality is coming into my life.

For my is surrender to my master the most religious act of our do.

Of course I love to visit him in Rajneeshpuram, so I meet last july for the second time. In his presence I feel so much love.

I live in a Bhagwan Shree Rajneesh neo-sannyasi commune and being together with other disciples we create a Buddha-field. More and more I feel glimpses of the presence of Bhagwan Shree Rajneesh. The whole atmosphere in this Buddhafield creates a loving space in which I can grow.

In our own commune we have our religious happenings and ceremonies.

I hoped I have informed you enough.

With sincerely greetings

Jn. andnd Shanti

Shree Rajneesh.
