

Bergamo, 29 JUL 83 (Italy)

To whom it may concern:

I am a Rajneesh samyassin and my name is Anand Dardesh (Bontemps Silvano) and I work in a Gas Station. I have been lucky to meet Bhagwan in India eight years ago, address by a friend, and from that moment my life was completely changed in positive.

This transformation and knowledge of a self is going on still now, with good help for me and the people around me, in work, township and family.

This wonderful master is the big gift for humanity in this troubled century. I'm sure, he is a hope for our difficult moment, because of his love message "existential" and not philosophical.

You can see in Oregon and in all the world what kind of transformation became from his work in any social life.

Trusty in your sensibility will recognize Bhagwan like a friend and spiritual Master, and that his work was to go on in the only really free country, The U.S.

Thanks a lot and love

Sincerely Anand Dardesh
