FROM JAMES OLDHAM, M.D. CONSULTANT PSYCHIATRIST, and BUSINESS CONSULTANT.

The Department of Immigration,
UNITED STATES OF AMERICA.

To Whom it May Concern:

I am a consultant psychiatrist in practice in Melbourne, Australia. I have worked in Toronto, Canada, San Francisco and other cities in the world and currently hold medical licences in Ontario, Canada; Connecticut, U.S.A.; and Melbourne, Australia.

I am a Fellow of the Royal College of Physicians of Canada, and a Fellow of the Royal Australia and New Zealand College of Psychiatrists. I have written articles for the medical press and the general press as well as a book on psychotherapy.

I wish to testify on behalf of BHAGWAN SHREE RAJNEESH who is a man of exceptional ability and creativity.

He is known throughout every country of the world and has produced a number of very important spiritual and psychological books as well as providing inspiration for a great number of people through his direct teaching. I know about him through the people that follow his teaching and through reading his books. You can recognise the quality of a teacher through the effect they have on their pupils, and Bhagwan allows his students to become more receptive to others and to be more flexible in their behaviour, more adaptable. Although some of his followers appear to be alien to our western concept of individuality, in their common dress and values, I believe he teaches a deeper level of individuality and that his teachings will contribute to a stronger western world.

In conclusion Bhagwan Shree Rajneesh is a man of exceptional ability, whose philosophical and psychological understanding and performance is well above most people alive in these times. He is a teacher and spiritual leader of great importance and relevance in these times.
