Lugano, July 21 1983

To whom it may concern:

I studied social education and graduated as a Social worker in 1977 at the University of Hamburg. Since ten years I have been working in the protestant church as counsellor and in other social institutions.

Since more than one year I work now in one of the biggest therapeutic centers for Hypnotherapy in Munich, Germany. In my work Bhagwan Shree Rajneesh has been most helpful for the psychological and spiritual growth of my patients.

In 1977 I heard about Bhagwan Shree Rajneesh through my own therapist.

For me this enlightened Master is the most important spiritual guide existing. His approach towards philosophy, psychology and creativity contains a message for the whole humanity which can't be overheard.

Yours faithfully
