

To the Immigration Authorities of the State Oregon, USA.

July 22, 1983

Gentlemen,

It's with great anxiety I hear, that my spiritual leader, Bhagwan Shree Rajneesh, perhaps will be prohibited permanent stay in Oregon, USA.

As an editor and body-therapist I would like to state to you the enormous inspiration I have found and still find through the teaching of Bhagwan, who now has been my master for 7 years.

In my work as a body-therapist at a Danish government institution for deaf-blind people (Ungdomshjem for Døv-Blinde, Aalborg, Denmark) I greatly benefit from the teaching of Bhagwan. During massage sessions with the deaf-blind I get direct guidance how to treat the patient. This is fundamental for my work. These sessions have proved to be very helpful for the mental, physical as well as the emotional growth of my deaf-blind patients. Both the leader and the staff of the institution are overwhelmed by the surprising positive results, which are not understandable to them in comparison with generally known techniques.

As an editor I am surprised that United States with its deep grounded tradition for religious freedom, and as such an example for the rest of the world, now seems to go against these high principles. As the whole world knows, USA has always during its history given refuge to spiritual leaders and their disciples.

I deeply hope that the authorities of Oregon will consider these valuable traditions, when they take their final stand in this case, which is so vital for Bhagwan's more than 300.000 disciples.

Yours sincerely,

Swami Premprabhu
