

To Whom it may concern;

I have been involved for several years in the legal field working as a paralegal in both public and private practices. As part of my work I have dealt extensively with both the legal and personal problems of the client and with research, writing and organization.

My background consists of a Bachelor of Arts degree in history and a degree from a specialized paralegal training school.

My first contact with Bhagwan Shree Rajneesh occurred by accident; I hadn't been a spiritual seeker and was mostly career oriented. I happened to read one of Bhagwan's books, lent by a friend, and to my surprise I was completely overwhelmed by a sense of having finally come in touch with one who spoke the universal truth and spoke it with total clarity, grace and love. I began practicing Bhagwan's meditation techniques and his presense became prominent in my life. I experienced a tremendous release of years of accumulated stress and anxiety. A sense of awakeness and alertness began to grow in me. I noticed in my work that my communications with people were improving in that I was more attentive and interested in their problems and my ability to focus on detailed organizational tasks and to approach legal research problems creatively was enhanced. My co-workers inquired frequently and positively on the changes in me.

My connection with Bhagwan has always been through silence. I was and am continuing to be transformed in his presense. There is no "rational" explanation for this for it is a matter of the heart, and of trust, of faith and of love, not of mind.

The United States will be greatly benefited by allowing such a man as Bhagwan Shree Rajneesh to live here for He is an exceptional worker of practical miracles through the medium of silence.

Sincerely,

Ma Prabodh Mukti
