To whom it may concern.

Dear Sir,

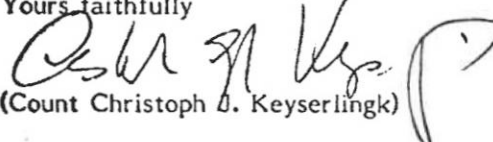

more than seven years ago I met Bhagwan Shree Rajneesh in Poona. To become His deciple was an event I never dreamt could be possible. There was somebody I had searched for my whole life, a real master whom I could accept without the slightest backthought.

I studied history, sociology and comparative religion at the universities of Bonn, Berlin, Munich and London. I come from a family which is well known for its poets and philosophers (i.e. Count Hermann Keyserling: The Journals of a Philosopher) accordingly I grew up in a very sophisticated surrounding. I worked with Count Karlfried Dürckheim, who is known for his Zen-Meditation-School etc., but nowhere could I find answers, which would satisfy my innermost being. By "chance" I came to Poona. There I did not really find the answers but sombody who was the answer in himself. Bhagwan's love, His awareness, His being became the light in which I was able to learn about myself. To be in His presence is enough to go into my own self. Of course His words helped but much more helps His silence which is beyond His words.

It is impossible to express what He gave me as a Master, as it is a unique experience which as I believe everybody can only experience in his own ways if one allows onself to be open for such an experience.

To my own surprise since nearly two years I am the director of a company which deals successfully mainly in real-estate with a turn-over of more than DM 30 Millions.

Yours faithfully

(Count Christoph D. Keyserlingk)
