

GEORG DEUTER  
T. STEEGEN WEG 11  
43 ESSEN 1  
WEST GERMANY

To whom it may concern

I am a composer and musician from West Germany making music for the last 12 years for records, movies and the German TV, a ballet for the 'Deutsche Staatstheater' in Braunschweig, various radioplays, playing concerts all over Europe and participating in the New Age music festival of Radio Bremen in 1982.

I published about 10 record albums which are well known and sold in Europe and in increasing number in the USA. In Munich I worked on a research for Music and Meditation and Music for Therapy.

My interest in spiritual growth made me travel through many countries, working with growth movements and visiting places for meditation and therapy.

In 1973 I met Bhagwan Sri Rajneesh, whose methods for meditation and unique therapies have deeply influenced my life and my work.

Nowhere else have I found such insight into human nature than in the books of Bhagwan and never again have I met somebody with such understanding and love for human growth. It is no wonder that he is now so much appreciated internationally.
