To whom it may concern:  
Bhagwan Shree Rajneesh  
has been - and is - an inspira-  
tion to my daughter. This  
in turn - has led me to read  
some of his books and listen  
to his discourses.

His philosophy and teachings  
have influenced my daughter -  
and her whole presence has  
improved.

I have been to Rajneeshpuram  
and find Bhagwan - and his  
followers to be educated,  
worldly and truly a fine  
group of people.

TH Although my own background is Episcopalian, - I have of late shown interest in the Church of Religious Science. I feel that Bhagwan's teachings take some of the spirituality of these churches a step further - into daily living with awareness and peace of mind, plus spiritual growth.

Bhagwan appears to be an exceptional Indian Religion leader.

I intend to continue reading his books - for I feel it has helped me with my confidence and ease ~~both~~ both with my cleaning and radio projects.

Sincerely,

Doni Clamen
