To whom it may concern

Since 8 years I'm a teacher at a German Elementary School and a disciple of the religious Master Bhagwan Shree Rajneesh.

The reason I'm writing this letter is that I've heard about the refusal of Bhagwan's visa. I was very astonished about the argument saying he's not a religious master. Since the first time I got contact with Bhagwan and his religion, my whole life really changed. He brought so much love, sense, joy and religion into my life ( formerly I was an atheist) and into the lives of many people I know. I just can say that he's a real religious teacher and with his love and wisdom he is a great enrichment for a free and liberate country as America.

Yours
