

July 1983

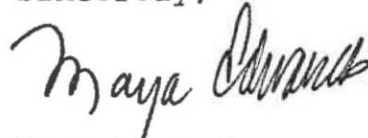

TO WHOM IT MAY CONCERN:

I am an L.A. resident and business woman. I have been watching with great interest the life of Bhagwan Shree Rajneesh and his following in the U.S.

It is my experience that Bhagwan Shree Rajneesh is an outstanding and exceptional world-class writer on the subjects of religion, social issues and psychology. He is able to merge Eastern and Western thought with great clarity and has affected the lives of hundreds and thousands of individuals in a positive way through his books. He has the exceptional ability to gather around him thousands of people who are dedicated to peace, love and freedom on our planet.

In my opinion, he is most worthy to stay in the United States and as an American citizen I would love to see him stay on here so that this community of peace and love can flourish for all of us.

Sincerely,

A handwritten signature in black ink that reads "Maya Edwards". The signature is written in a cursive, flowing style.
