To Whom it May Concern:

This letter is written in support of the visa application of Bhagwan Shree Rajneesh. As a mental health professional (I have a Bachelor of Education Degree and a Master's Degree in Social Work), I have found that this man's writing and work have had more of a positive impact on the entire field than any other author I have read.

As a participant in several meditation and growth groups, I was highly impressed with the profoundly effective techniques Bhagwan has devised and the extraordinary precision, clarity, and care the group leaders exhibited.

There is no doubt that Bhagwan Shree Rajneesh is a person of exceptional ability whose continued presence in our country would be of immense value to us all.

Sincerely yours,
Patricia Murphy
